CELEBRATING 30 YEARS
HELPING LIFEGUARDS SAVE LIVES
LIFEGUARD UNIFORMS | LIFEGUARD EQUIPMENT | SINCE 1989
MISSION STATEMENT  Providing creative, reliable, and functional uniforms and equipment for aquatics and leisure professionals

Water Safety Products is celebrating 30 years!

Our Humble Beginning

With our family roots deep in the Surfing Industry, including a history of retail surf shops, surfboard manufacturing and sales representation, around 1980 we began manufacturing a junior swimwear label known as Sea Oats Swimwear.

In 1987, Wet ‘n’ Wild Orlando, Florida visited our booth at Surf Expo. They asked us if we could make a ladies swimsuit for their lifeguards. Their expectations were the suit would be conservative, not see-through, and that it would hold up in the harsh environment lifeguards work in 40 hours a week — sun exposure, UV light, chlorine, and sporadic care.

After much research into fabrics and elastics, and the diligent design work of our pattern maker June Jones, we had a beautifully fitting, conservative, fully lined ladies suit for the lifeguard market. Wet’n Wild loved the product. We had exceeded their expectations and stumbled on a new niche in swimwear — uniforms for professional lifeguards, and they were made in the USA.

The news about our ladies suits spread quickly through the growing waterpark/pool market. To complete the need, we began work on a high-quality mens uniform short. The matching uniforms would unite the lifeguards as a team at their facility.

In 1989, after two years of testing and designing our new suits, Water Safety Products, Inc. was established.

We are proud to say we continue to make our uniform suits in the USA, with an emphasis on comfort and real-world utility. We continue to develop and improve many products for the lifeguard industry, crafting each item with award-winning care to ensure lasting performance.

Paula Panton
Why Choose Water Safety Products?

Superior Quality Products
Our determination to offer superior quality and advanced performance products is reflected in all we do. With over 30 years experience in manufacturing swimsuits for professional lifeguards, our dedication and product quality are unmatched. We are a company team that defines not only a passion for quality and service but an unsurpassed dedication to lifeguarding around the world.

Sizing
We provide sizes from XS to 6XL in our most popular styles and colors.

Made in the USA
Whenever possible we provide products that are made in the USA. All of our lifeguard swimsuits are manufactured by us, using American fabrics and American seamstresses.

Constantly Innovating
Since 1989, we have been listening to our customers and developing award-winning products. We have been recognized and awarded many times by industry leaders.

Unparalleled Customer Service
We are committed to serving our customers both stateside and around the world. We do everything possible to make your purchases and deliveries simple and efficient. Lifeguard uniforms are in stock year-round and available for immediate delivery.

E-Commerce
E-Commerce business with Water Safety Products Inc. offers immediate access to product details and 24/7 online product purchase, with real-time freight quotes and unmatched functionality.

Committed to Value
As a manufacturer/supplier, our commitment to value is central to our business. From the value of every detail in all our products, to the value you get when your lifeguard team is professionally uniformed and equipped, Water Safety Products offers the highest quality products in our industry, with sensitivity to your budget.

www.WaterSafety.com
With our precision engineering and high tech fabrics, Water Safety Products, Inc. delivers technological innovation in every garment we manufacture.
With our precision engineering and high tech fabrics, Water Safety Products, Inc. delivers technological innovation in every garment we manufacture.
Water Safety Products, Inc. offers premier embroidered logos for commonly purchased items such as men’s and ladies’ uniform swimsuits, hats, polo shirts, jackets, lycra rash guards, and travel bags.

**Water Safety Products’ Standard Lifeguard Logo**

Standard Lifeguard Logo includes the word Lifeguard and a rescue cross.

Embroidery Charge: See our website.

Returns: Standard Lifeguard Logo is RETURNABLE if logo is placed on the left leg of men’s and ladies’ shorts, and the center chest of ladies’ suits. Credit only, less 15% restock fee, if returned within 30 days of purchase.

**Custom Standard Logos**

We can offer a variation of our standard logos, affording you the opportunity to customize your uniforms without incurring the expense of a true “custom” logo. The standard rescue cross can be encircled with your choice of wording; for example, City of Orlando Lifeguard. There is no setup charge for this option.

Embroidery Charge: See our website.

Returns: Items with Custom Standard Logos are NOT RETURNABLE.

**Specialty Program Logos**

Use these logos on any embroiderable item.

Returns: Items with Specialty Program logos are NOT RETURNABLE.

**Lifeguard Agency Logos**

At your request, we offer many Lifeguard Agency logos. Call for more info.

Returns: Items with Lifeguard Agency Logos are NOT RETURNABLE.
Custom Embroidered Logos

Artwork: Artwork for your logo can be E-mailed to art@watersafety.com. We accept most graphic art files. Clean, hard copy artwork is also acceptable.

Embroidery File: One-time charge for creation of embroidery file; see price list. If you currently own an embroidery file, it can be emailed to us. We accept standard embroidery formats such as Tajima and Melco. There is no setup charge if you own your own embroidery file.

Logo Size: Dimensions of embroidered logos are approximately 3”x 3” for typical uses including swimsuits, shirts, bags, jackets, and hats.

Embroidery Charge: The per-item embroidery charge is based on the stitch count. Call 321-777-7051 Ext. 113 for details.

Production Time: Allow 10-14 days for a new embroidery file. Allow 3-5 days for completion of order once you have approved your design.

Returns: Items with custom embroidered logos are NOT RETURNABLE.

Custom Screen Printing

We offer custom screen printing for a variety of items such as T-shirts, technical shirts, sweatshirts, Lycra rash guards, and rescue tube covers.

Standard lead time for screen printing is 14 business days after art approval. Call 1-800-987-7238 Ext. 113 for lead times, large quantities or any special handling.

• Artwork should be in a vector file format such as .ai, .eps, or Corel Draw. Additional art charges may be added if art is in an unacceptable format
• Include font and size desired if typesetting is requested
• Unless a specific size is indicated, Water Safety Products, Inc. will determine the most appropriate size for your screen print
• There is a minimum of 24 pieces for an order requiring screen printing
• A screen set-up charge will be assessed on all non-repeat orders
• We reserve the right to adjust the size of any layout or letters to fit the garment in the most attractive way possible

Rush Services: Rush services are available; just ask. Additional charges for rush service may apply. Please keep in mind that we are in the Eastern time zone.

Returns: Items with custom screen printing are NOT RETURNABLE.

**#710 WSP Premium 50” Color Rescue Tube with Reach Assist**

Our #1 waterpark design measures 50” long by 6” wide by 4” thick. No clips, no rings. Adjustable shoulder strap is connected to the tube by 1” nylon strapping that extends completely through the length of the tube for added strength. #710 only: additional strap length available upon request.

**QUALITY & PERFORMANCE**
- Constructed with two layers of 1.75-inch high-density, closed-cell foam
- Multiple layers of vinyl coating to minimize punctures and tears
- Sanded edges reduce cracking
- Strap securely anchored through entire length of the tube
- Box X stitching on all straps minimizes ripping and tearing
- Now includes Reach Assist

---

**#701B WSP Premium 40” Rescue Tube with Clips**

Our 40” rescue tube in a wraparound style, with ABS quick-release buckles. Includes “GUARD” lettering.

---

**Mesh Rescue Tube with Reach Assist**

**#2603 First Response Bag**
Holds the AED, D size oxygen in or out of its hard case, BVMs, and suction unit, with room to spare. Includes Velcro® strap and pads to secure O2 unit. Versatile, clear plastic windows allow you to insert cards describing the contents of each compartment. Made of rugged polyester, with water-resistant finish and PVC backing. AED compartment 12”x12”x6”. Overall measurements 22”x16”x12”.

**#488-214 Oxygen Tubing**
7” oxygen tubing with standard connectors at both ends.
AED Heartstart FRx AED
HeartStart FRx Defibrillator package includes one set of Smart Pads II, long-life 4-year battery, and 8-year manufacturer’s warranty.
- Coaching assistance with CPR – one push of a button. Smart Pads II can be used for both adult and pediatric defibrillation (Child/Infant Key required for pediatric defibrillation).
- Small, rugged, and lightweight, just 3.5 lbs.
- Multi-use features include adult and pediatric dual use, AED training, CPR coaching.
- Available options (at additional cost): Child/Infant Key steps down unit for pediatric use without changing pads; training pads to convert the FRx to a training unit; and carrying case.

Physician Authorization is required for AED purchase, and must be validated. If you do not have Physician Authorization, a Medical Direction contract is available for purchase.

AED-FRXC FRx Carrying Case
Semi-rigid case has enough room for a spare battery, spare electrodes, and an Infant/Child Key. Self-check indicator can be seen through clear window.

#8008-TR Zoll AED Plus Trainer2
Complete simulation Control at Instructor’s fingertips. Comes complete with wireless remote controller, one set of CPR-D-padz®, one set of AED Plus Trainer CPR-D-padz® reusable gels, four D cell batteries, two AA cell batteries, and operator’s guide.

#33004 Oxygen Module
Oxygen module for Statpacks G3 Breather trauma backpack. This emergency oxygen tank holder is designed to accommodate most D and Jumbo D tanks.

#35008 Statpacks G3 Breather Trauma Bag
Unique design allows access to the main compartment from the top or front bag.

AED-FRXP FRx Smart Pads II
Smart Pads for the HeartStart FRx Defibrillator can be used for adult, child or infant defibrillation. Infant/Child defibrillation requires optional infant/child key.

AED-TR2 FRx Training Pads
Used to activate the FRx’s training mode and suspend its ability to deliver a shock, or used with a HeartStart FRx Trainer. Includes one pair of reusable adhesive pads with integrated cable and connector.

#AED-SA Zoll AED Plus Defibrillator with Medical Prescription.
Semi-Automatic AED. Comes with a CPR-D Padz Electrode equipped with Real CPR Help technology, sleeve of 123 Lithium batteries, carrying case, and the AED Prescription.
Height Measuring Sticks

Originally designed by Water Safety Products, our height measurement sticks are made with engraved HDPE measurements for a long lasting and professional look. These are virtually indestructible under normal use and will not corrode, fade, or be affected by UV light/chlorine. They are available in a variety of stock sizes, dual sizes, and can even be customized to heights up to a maximum of 54".

Custom Height Sticks Available

Igloo 5 Gallon Water Cooler
#48153
Also available with custom logo.

www.WaterSafety.com
FACILITY EQUIPMENT  Signs and Flags

KIDS DON’T FLOAT!
- Always wear a lifejacket near water
- NEVER swim alone! Adult supervision should be nearby and watching
- The best lifejacket is the one you WEAR.
- Make sure the lifejacket fits properly and the buckles are fastened

How to properly fit a lifejacket
Fit To Size
Check lifejacket label for appropriate weight/height size
Fasten All Straps
Buckle all straps. Tighten or zip all buckles/zippers. Don’t forget wrist straps. Available
Lift To Test
Gently have wearer lift arms over head and lift them by the top of the arm openings
Too Big
The jacket is too big if it rises above the ears, which is unsafe
Not Buckled
The jacket will not function properly if too small if the straps/zippers don’t close, which is unsafe
Lifejacket not properly fit

Fiberplate®
STAIR TREAD COVERS

MAINTENANCE SOLUTIONS Stair Tread Covers

Providing unique products and low maintenance solutions as the best approach to maintaining and preserving your facility.

Need a Staircase Facelift?
Fiberplate® stair tread covers are a convenient way to provide solid, slip resistant footing for existing treads that are still structurally sound. Stair tread covers may be installed over wood, concrete or metal steps. Standard color is light grey with a highly visible safety yellow nosing.

An integral aluminum oxide aqua grit-top surface provides secure footing for maximum safety and a highly durable tread (industrial grit available upon request).

These tread covers are available in 8", 9", 10", 11" and 12" depths. Each 12' panel can be cut and sealed to your specific width. Also available in 1/4 thickness as a custom order.

#8-8 Tread Cover
12' x 8" x 1/8" Thickness

#8-9 Tread Cover
12' x 9" x 1/8" Thickness

#8-10 Tread Cover
12' x 10" x 1/8" Thickness

#8-11 Tread Cover
12' x 11" x 1/8" Thickness

#8-12 Tread Cover
12' x 12" x 1/8" Thickness

Before

After

#282
Maintenance Bump Cap
Safeguard against accidental bumping or scraping of the head. Ideal for Ride Operators, Inspectors, Maintenance Staff or pump room safety.
AquaDek
COMPOSITE GRATING

Specifically engineered to withstand the corrosive conditions associated with recreational and general marine applications. Meets ADA guidelines and offers optimum comfort and safety for bathers with bare feet.

Applications:
- Public swimming pools
- Water parks/ theme parks
- Marinas
- Zoos

MeshDek
COMPOSITE GRATING

The square top mesh has a maximum opening of 1/2” inch and meets the ADA guidelines. The mesh grit surface is slip resistant and barefoot friendly. MeshDek meets Army Corps of Engineers guidelines and is storm surge friendly.

Benefits:
- Low maintenance
- Barefoot friendly
- Corrosion resistant
- Lightweight
- Low-cost installation
Staircases

ValuStair™

Need New Stairs?
ValuStair™ is ready for on-site new or retrofit installations. Ideal for indoor or outdoor applications, including slide towers, zip line courses, pump rooms, fire exits and mezzanines. Standard configuration is 22’ by 4’ with an 11’-8” rise. Easily segmented for shorter runs.
Made in the USA using sheetless ThermoForming™, a green technology that uses low energy, produces no VOC’s and a 0% waste stream. Uses recycled resins. 95% HDPE, 5% fiberglass. Coming soon 22” x 60” width ValueStair.

- Low Cost
- Low Maintenance, Corrosion-Free
- No on-site construction, self-supporting design
- Closed riser treads, 11” tread depth
- Non-slip surface
- 12” structural channel composite stringers
- Load is 400 lbs per square foot
- Deflection is less than 3/16 of an inch
- Total stairway weight 500 lbs.
- Stock color is grey
- Custom colors with low minimum quantities
- Can be shipped by container or truck

for Best New Product: Services, Equipment, and Supplies

www.WaterSafety.com
TERMS AND CONDITIONS

It is our mission at Water Safety Products, Inc. to assist in saving more lives by working in partnership with Lifeguard Professionals around the world, providing the creative, quality equipment and uniforms needed to perform their ever-vigilant duties in times of water emergencies.

Delivery:
Water Safety Products, Inc. stocks inventory year-round, with our peak shipping season being March through June. Orders normally leave our warehouse within 48 hours. No delivery request is considered unreasonable; please don’t hesitate to ask. Please keep in mind that custom orders require additional lead time; call for delivery information on your custom order.

Commercial Orders:
Terms are either 2% 10 days or Net 30 days, with approved credit only. Terms will not be considered until a credit application has been completed and approved by credit department. We also accept all major credit cards.

Government Purchase Orders:
Military, government agencies, and municipalities are 2% 10 days or Net 30 days with approved purchase order, or credit card.

International Orders:
We gladly accept international orders – we are the number one international shipper in the lifeguard business! Goods will be shipped after bank acknowledgment of funds transfer. Other payment options are Visa, MasterCard, American Express, or Discover. When a Pro Forma invoice is required for advance payment, no order changes will be accepted after the Pro Forma invoice is issued.

Personal Orders:
The only accepted method of payment is by major credit card. When calling for an order, please have your order information, credit card number, and credit card billing address available. Freight Charges are added to all orders.

Samples:
Samples are available on request. They are billed Net 30 days, or to your credit card. You may inspect the product and return it unused within 30 days for full credit. If you prefer to test the garments, the invoice must be paid within 30 days.

Returns:
ALL RETURNS MUST BE AUTHORIZED. Caller will receive a return authorization form. This form, plus a copy of your original invoice, must be included with your returned goods. There is a 15% restock fee, unless the return is due to our error. No returns are allowed after 30 days. No returns on custom goods.

Swimsuit Returns:
Swimwear that may be defective and is being returned for our inspection MUST BE LAUNDERED AND CLEAN, or it will not be considered for replacement.

Allowable Swimsuit Returns:
• Unused suits in new condition
• Center chest lifeguard and cross embroidered women’s suits
• Left leg lifeguard and cross embroidered men’s suits

Swimsuit Returns Not Allowed:
• Silkscreened logos of any type
• Custom embroidered swimsuits
• Lifeguard and cross embroidered women’s suits if you choose left hip placement
• Lifeguard and cross embroidered men’s suits if you choose logo placement other than left leg

Cash Refunds:
Cash refunds will be issued only in the case of overpayment, NOT on returns. Credit to your account will be issued on returns. This credit must be used within one (1) year of issue date.

Freight Charges:
Freight charges are added to all orders, which are F.O.B. Palm Bay, Florida.
Water Safety Products would like to offer our thanks to all of our customers for your support and continued business since 1989. We are an ecologically responsible company moving toward a carbon neutral future. We are developing innovative industry products that are environmentally conscious and treat our earth with respect. We encourage all of you to strive for the same high level of environmental care.
