

DuraDeck™ Accessories

Connector Links - Four different connection systems: 2- and 4-way metal or plastic links, depending on specific need.

DuraLink™ Metal Links:

- Formed using $\frac{3}{4}$ x $\frac{1}{4}$ inch flat steel
- 2-way version connects two DuraDeck™ mats together end to end
- 4-way version connects four mats together at an intersection
- Used for heavy-duty loads and long-term projects on uneven or soft ground surfaces

PlastiLink™ Plastic Links:

- Injection molded in nylon for added strength, and to allow quick connection of sections for lower weight requirement applications
- Available in 2- and 4-way versions
- Will not rust or corrode; can be used in wet areas

DuraHook™ Drag Hooks:

- Helps speed installation time
- Insert into one of the connector holes to drag the mats into position

Hole Plugs™

- Used to fill unused connector holes when mats are used for pedestrian applications, thus preventing a tripping hazard

Metal DuraPallets™

- Extra-large, for easy transport of DuraDeck™ mats (holds up to 50 mats)
