

DuraDeck™ Protective Matting System

DuraDeck™ - Professionally engineered to provide temporary ground protection, traction, and access over unstable surfaces.

DuraDeck™ DD1 - Double-sided rugged traction surface, for use in getting heavy equipment onto a job site without damaging the ground or turf. Provides access for trailers up to 80 tons over unstable surfaces such as sand, mud, snow, or grass. Mats are 4' x 8', ½" thick; also available in 2' x 8'.

DuraDeck™ DD2 - Dual-surfaced; rugged traction on one side, pedestrian-friendly surface on the other. Suitable for parking areas, construction site walkways, concerts, etc. Mats are 4' x 8', ½" thick.

DuraPad™ - The lightest and most durable outrigger pad on the market; used with heavy equipment requiring "outrigger" stabilizers. Supports up to 80,000 lbs. Has a multi-directional textured surface, eliminating slippery conditions caused by snow, water, or mud. Available in six sizes, from 18" x 18" to 36" x 36".

DuraDeck™ and DuraPad™ New Green Technology: Uses Sheetless ThermoForming™ Technology. No VOCs generated during the manufacturing process. Low energy usage for production. 0% waste stream. Uses recycled resins. Recycled content 90%, allowing for preference under state, Federal, and local government purchasing guidelines.

DuraDeck™ Benefits:

- Superior alternative to plywood & fiberglass
- Can be used repeatedly
- Guaranteed for 7 years
- Saves time and labor moving people, vehicles and equipment over difficult terrain
- Can be handled by 1-2 people; easily positioned at job site
- No tools required for installation or removal; easily assembled with DuraDeck™ connector links
- Chemical and weather resistant

DuraDeck™ Shipping Information:

- Up to 500 sheets can be transported on a standard tractor-trailer
- FOB Rockledge, Florida
